PROJECTS

Food Munch :

Discover the world of food with this responsive website that showcases a comprehensive list of food items.

- Designed with a user-centric approach, this website features HTML structure elements and Bootstrap components to ensure a seamless experience.
- Get a closer look at the food items with product videos, available at the click of a button.

Todos Application :

A robust task tracking system with CRUD capabilities, crafted to simplify task management.

- Designed with HTML, CSS and Bootstrap to ensure a user-friendly interface for managing tasks.
- Engineered dynamic UI updates by implementing JavaScript event listeners and DOM operations, streamlining CRUD operations and enhancing user experience; decreased loading time by 40% and reduced user errors by 25%.
- Implemented advanced local storage methods to ensure secure task persistence, resulting in a 0% data loss rate over 12 months and enabling seamless user experience during system interruptions.

Tourism Website :

Developed tourism website where users can browse through the content, videos and images of popular destinations.

- Implemented mobile friendly layout using different HTML block, inline elements, and Styled using CSS3 properties such as background, flex, and CSS box model properties.
- Implemented multiple images of a particular destination in a carousel using bootstrap carousel and virtual tour videos using bootstrap embed component.

WORK EXPERIENCE

DEVLEXUS

Role: MEAN Stack Developer

March 2023 - Present

Tirupati, Andhra Pradesh

MaxQ :

- Ensuring meticulous temperature control for blood, medications, vaccines, and more, MaxQ thermal packaging solutions instill confidence and peace of mind during transportation, whether within hospital facilities or across global networks.
- Designed and implemented both front-end screens and back-end APIs, integrating calculation logics for modular functionality, by using MEAN stack (MongoDB, Express.js, Angular, Node.js) technologies.

Airotec :

- Pioneering the industry, this company revolutionizes air sampling with its cutting-edge badges and sorbents, enabling precise monitoring of environmental and personal chemical exposures.
- Designed and implemented user interface screens and corresponding API endpoints for system modules by using the MEAN stack Technologies.

CERTIFICATES

- Acquired certification in Skill Development.
- Completed a six-month internship program at R&B Subdivision-II, Tirupati, gaining valuable practical experience.

ACHIEVEMENTS

- Directed a project alongside a six-member team, overseeing its successful execution.
- Served as the coordinator for a technical fest at the college, orchestrating its planning and execution.
